My List Section

- A flexible, random list for tasks or ideas users aren't sure how to organize.

- Users can store tasks temporarily until they're ready to prioritize.

- Tasks can be moved to any list or project board when needed.

Purpose:
We've developed an MVP for a simple yet powerful task management app, helping users stay organized and on track.

Core Features:
- **Task Creation:** Easily add tasks with key details.
- **Task Management:** Edit, delete, move, and set dependencies.
- **Task List:** Organize tasks, including a "Complete" column.
- **My List:** Flexible space for random tasks and ideas.
- **Group Projects:** Collaborate and organize tasks for team projects.

Impact:
This MVP demonstrates essential task management features, focusing on simplicity, efficiency, and flexibility for users.

Thank you!
